TREASON RIDES THE TRAIL ACROSS THE "NEW FRONTIER"

An attempt to trace the path of treason, compromise, and appeasement of the enemies of our Christian republic that has led us, through crisis after crisis, to the brink of worldwide anarchy and chaos carries the explorer so far back into the mists of antiquity that it is hard to choose a starting-point. Treason goes hand-in hand with subversion of the law, with usurpation of rightful authority, with crime committed in the name of the law, and our present predicament is a late chapter in this old, old story.

Blackstone, one of the great legal authorities, stated that the English Common Law, which can be traced back to and beyond the "Dooms" of King Alfred the Great, was the natural and revealed law of God. These laws are rooted in the Ten Commandments and the principles of Christianity, and are in direct conflict with the criminal code of the Babylonian Talmud to which Christ referred when He said to the Scribes and Pharisees, "Ye have made the commandment of God of none effect by your tradition." An almost-incredible example of the endless attempts of the present-day custodians of the Babylonian system to undermine our United States Constitution was their conquest of Earl Warren, Chief Justice of the Supreme Court, who sat at the feet of Rabbi Louis Finkelstein, chancellor of the Jewish Theological Seminary, for instruction in the judicial processes of Judaism.

The law governing the Anglo-Saxon world has suffered many mishaps and followed some strange detours in the course of its history. It was once dictatorially lodged in the person of King John of England until wrested from him by English barons and deposited instead in Magna Carta; and at the present time it totters under Earl Warren's hammer-blows at the Constitution of the United States.

In July, 1957 at Runnymede, England, occurred one of the oddest quirks of history through Warren's participation in the presentation to Britain by American lawyers of an eight-columned rotunda as a shrine to Magna Carta. Would that we could know the thoughts that flitted through the towering mind of our Chief Justice on that occasion! Grateful appreciation of the fruits of Magna Carta, perhaps? Or a sneaking, comradely sympathy for sullen, thwarted King John? They make a strange fraternity—King John, Earl Warren and others of like mind, including that colorful character of the Old West Roy Bean, the gun-toter with the fast draw who functioned on his own say-so as "the law west of the Pecos".

As the law followed the Emigrant Trail in the conquest of a continent it necessarily rode with the sheriff's posse and with bands of vigilantes. Often, lacking other means of law-enforcement, it was administered by "Judge Lynch".

Glimpses of those bygone events are a daily feature of The Phoenix Gazette in flashbacks titled This was news 75 years ago in Phoenix. Apache marauders, General Crook in pursuit of the wily chief Geronimo, certain gentry who ought to be hung and often were, and President Cleveland hold the news spotlight again. In an item that might be of interest to Eisenhower in his Gettysburg retreat the retired president of that day takes a last bow: "Ex-President Arthur complains of solitude. After a course of official big dinners, it is hard on a man to be left alone with his liver."

And there are items that in a weirdly-prophetic way seem to cast the shadow of the political ills that beset us today. Take this for instance: The extent of Delegate Bean's labors since he entered congress is the introduction of a bill to abolish our county courts. The old fossil is meddling in things which he ought to let alone. The county courts of this territory are giving satisfaction to the people and should be allowed to stand. He stands by and allows marauding bands of Indians to depredate at will throughout our territory, but he is very active when such an obnoxious matter as the abolition of our courts is made an issue."

And this intriguing reference to "Dr." Olney: "'Dr.' Olney, a tramp printer who also dispensed some salves and lotions on our streets, is a person whom we warn the fraternity against. Besides being unclean, his presence requiring the applications of several bottles of carbolic acid and other disinfectants in this office, he bilked all the boys of from $1 to $5 each. He is no good." Well, at least the free press of that day stated honestly that the Doc and his salves and lotions were no good. It would not, in the manner of today's captive press, have recommended the poisoning of a community's water supply with sodium fluoride on the pretext of preventing tooth-decay in small children and applauded the saturation of these hapless youngsters with vaccines more likely to induce polio than to prevent it, concocted by doctors of the ilk of Sabin and Salk.

The Gazette was forthright in condemning soft treatment of a savage outlaw at the expense of the peaceful citizens. To quote: "If a fiend incarnate ever deserved death at the hands of an outraged and patient and long-enduring people, that man is Geronimo. Since the campaign of 1883, there cannot be the slightest excuse for an act of violence upon the part of Geronimo to the people of this government, which condoned his multitude of crimes, whose mercy pardoned him, whose charity and sympathy fed him. Yet he took to the warpath, or rather the path of butchery. Geronimo knows that if justice is meted out to him he will extirpate his crimes upon the gallows with very little delay, yet General Crook goes to 'negotiate' with him, as though he were an honorable foe instead of a treacherous assassin and life-lone outlaw."

All this gives us the setting for scenes of activity on President Kennedy's "New Frontier" — at least the opening scenes. Where it may shift from there—whether there is any troubled spot on earth that will not eventually come within the scope of that indefinite, elastic frontier—is anybody's guess. Perhaps first to the

riotous, chaotic Congo to negotiate with murderous, people-eating denizens of the jungle at the expense of the American taxpayers; perhaps to the dark, unexplored reaches of outer space and, if competition with the Soviet Union requires it, still farther to nail American prestige to the near side of the moon.

Lyndon Johnson, campaigning for the Vice Presidency, struck the keynote when he rediscovered himself as a true son of the Wild West. The Richmond (Virginia) News Leader commented bitterly: "For the past two months the cartoonists have been ridiculing Johnson with chaps and six-guns; he is from the West, podner, and don't let anyone fergit it. In every way that could be devised, Lyndon Johnson has turned his back upon the South. He is like W.C. Fields snapping at Baby LeRoy: Go 'way, kid, ya bother me."

Newspaper cartoons struck the same keynote. In the driver's seat of stagecoach or covered wagon, and under the protection of gun-toting outriders Mike Mansfield, Lyndon Johnson and Sam Rayburn, JFK was pictured in the perilous attempt to get his precious cargo of Frontier bills past a tomahawk-wielding coalition of Conservative Republican and Democratic redskins ambushed on both sides of a narrow defile labeled Congress Gulch. This view of the case suffices as light entertainment when you unroll the evening paper and relax in the easy chair after a hard day's work. But it does'nt give you the true picture. Make no mistake: the vehicle Kennedy is driving is loaded with the accumulated treason that he inherited on taking office, and the imminent payoff of that treason is the delivery, through the instrumentality of the U.N. Charter, of our looted Republic to the receivership of an anti-Christian world government. The mounted escort—leaving Mansfield, Johnson and Rayburn out of the the picture—is made up of powerful Jews who know a great deal more of what it's all about than do these compromising congressmen or even President Kennedy himself. These outriders are Ribicoff, Dillon (Lapowski), Minow, Salinger, Caplin, Goldberg, Javits, Lemnitzer, Frankfurter, Schlesinger and others of the same tribe.

Yes, treason rides the trail across the "New Frontier" —the treason of entrapment in the godless United Nations Organization; the diabolical treason that solicited the Japanese attack on Pearl Harbor, that delivered American victories, notably the capture of Berlin, to the reds and granted them the use of our master plates with which to duplicate our occupation money following the German surrender; the treason of a planned defeat of Americans fighting under a mongrel international flag in Korea; the current attempt to throw our domestic affairs into a world court (based eventually in the state of Israel) through repeal of the Connally Reservation limiting our participation in the U.N. Charter.

That brings us back to consideration of the dogged drive by a cantankerous minority to substitute Talmudic decrees for our Anglo-Saxon judicial system, which follows the principles of Christianity and is our Constitutional birthright. And to examine the evidence of Jewish manipulation of the traitors who have reduced our national affairs to a state of bedlam. An editorial in the September 19, 1957 issue of the Jewish newspaper Heritage is headed "A GREATER DESTINY THAN THAT OF PRESIDENT and states: "There is unusual implication in the three-day course of study into moral values of Jewish law completed this week by Chief Justice of the United States Earl Warren. The Talmud that was presented to him also is weighty with implication ....History found for him a greater destiny than that of President. For he wrote the decision that stripped our land of duplicity and shame by government. On the path of the sages of old is Earl Warren—who indeed proclaimed liberty throughout the land to all the children thereof."

This of course refers to the Supreme Court's States-Rights-shattering school-desegregation ruling, and it suggests Jewish sparking of Eisenhower's bayonet charge into Little Rock, Arkansas, especially as it ties in with their increasing use of the United States Marines as a task force in reaching their tribal objectives. We had hardly got used to the new version of the Marines' Hymn, "From the Halls of Central High School to the shores of Lebanon", when Heritage editorially sprung this one on us: "From Halls of Montezuma to Sands of Sinai". This was in November, 1956 at the time of Israel's lightning thrust into the Suez Canal Zone and the aerial and naval bombardment of Egypt by Britain and France. The editorial is vague and rambling but the meaning seems to be that to live up to its reputation of fighting for freedom and honor on every shore the Marine Corps had a duty to take Israel's part in a showdown with Nasser.

You know the treatment that was given one brave ex-Marine who served his country's best interests in the Senate above and beyond the call of duty. Jewish publisher "Hank" Greenspun, convicted violator of the Neutrality Act in running contraband arms to Israel, is still cited as a hero in the kosher press for the fury of his editorial attacks upon Joseph McCarthy, and Jewish hatred has followed the Senator beyond the grave to heap abuse upon his name.

If, in guarding the expanding reaches of the "New Frontier", the Marines find themselves launched on an interplanetary flight to Mars what will they find there? Well, they'll be surprised! The California Jewish Voice of October 17, 1958 supplied the answer in advance in a cartoon showing the explorer, on disembarking from his rocket Earthship confronted with a billboard sign embellished with 6-pointed stars and reading: "Site of Future Home of Congregation B'nai Mars". Believe me, these tribal zealots have the interplanetary as well as every other situation well in hand; and it is a two-way deal: another Jewish Voice cartoon shows Martians arriving here upon earth parking their flying saucer before the door of Beth Zion Shul, and saying to the skull-capped receptionist, "Take us to your Rabbi."

This same Jewish Voice is now giving three cheers for President Kennedy's "Peace Corps"--the project for sending immature youngsters into impossible situations around the globe to solve the world's problems. It headlines: "PRESIDENT'S 'PEACE CORPS' SEEN REAL CHALLENGE TO U.S. JEWRY...The road for American Jews to send their children to Israel for a period of two years has now been opened by President Kennedy through the formation of his 'Peace Corps'. Youngsters over the age of 18, boys as well as girls, can now apply and specify that they want to be sent to Israel within the Peace Corps framework..." And so on. Evidently to Jewry the "Peace Corps is one of the brightest tokens of a brave new world in the making.

But a recent editorial in the Phoenix Gazette--the paper from which I gleaned those quaint 75-year-old flashbacks--asks: "How bold, brave or new? ...For thirty years, except when hot war made them give way to men of more purposeful nature, the Liberal proponents of a bold, brave new world have been making the foreign policies of the United States and Great Britain...After thirty years of such designing we should begin to see the bold, brave new shape of things evolving. What we see instead looks more like Babylon tumbling down...."

Truer words were never written. Babylon's walls are noticeably sagging and cracking as public alarm over the threat of dictatorship grows. Self-sacrificing patriots have been warning us down the years. The echo of one such early warning rings faintly across the intervening 23 years in a tattered clipping from the Oakland Post-Enquirer of October 1, 1938: "GENERAL MOSELEY SEES PERIL IN ADDED GOVERNMENT POWER --Maj. Gen. George Van Horn Moseley, speaking as a private citizen for the first time in 43 years, warns of the 'decay in leadership' in America and of the threat of dictatorship. General Moseley, brilliant soldier twice awarded the Distinguished Service Medal, retired yesterday from the army, which he entered in 1895 when he enrolled at West Point. In retiring, General Moseley yielded command of the Fourth Corps Area at Atlanta, Georgia..." And again in the Post-Enquirer of May 31, 1939 he made headlines in the report of his appearance before the Congressional Dies Committee in which he revealed that he had warned General Malin Craig, chief of staff of the U.S. Army, of a plot to overthrow the government.

These hearings culminated on June 1, 1939 in Maj. Gen. Moseley's thoroughly-documented statement proving on the published admissions of recognized Jewish leaders that Communism is Jewish; that the Bolshevik seizure of Russia, involving the murder of the Czar and his helpless family and the deaths of millions of Christians, was the work of organized international Jewry as the start of a worldwide social revolution; as was the seizure of Spain by the so-called Loyalist government which precipitated the bloody Spanish "civil war" of the mid-1930's; that our nation is in like peril by reason of the fact that a Jewish state operates within the United States--a nation complete within a nation--its Big-Four controlling organizations being The American Jewish Committee, The American Jewish Congress, The B'nai B'rith with its espionage corps miscalled the Anti-Defamation League, and the Jewish Labor Committee. The "tremendous power of organized Jewry" referred to by the general was strikingly demonstrated by the complete suppression of this deadly document to the point of excluding it from the permanent record of the Dies Committee, now the familiar House Committee on Un-American Activities.

The voice of this great patriot was stilled by death last November. One of his last messages to his countrymen ran: "WE NEED A RUNNYMEDE! we need it to free ourselves from the growing power of the Jews in finance and politics..."

His call to Runnymede is a reminder of the fact that just as surely as despotic King John had to be shorn of his power for the relief of suffering England Earl Warren, who serves hidden masters in turning the United States Supreme Court into an instrument to usurp the functions of Congress, destroy the Constitution and give aid to the Communist conspiracy, must be brought to book. Seize upon the puppet and you will upset and expose the puppeteer. Late returns on this particular puppet are carried by the B'nai B'rith Messenger of March 31st last in a photograph caption that reads: "Earl Warren--Chief Justice of the United States, was given the honorary Doctor of Laws degree from Yeshiva University President Dr. Samuel Belkin at a special convocation, March 26. Justice Warren also joined University leaders in laying the cornerstone for a new $3,000,000 classroom-administration building, the first unit of a $30,000,000 development."

Perhaps the most promising effort of informed patriots at the moment is their growing pressure upon Congress for the impeachment of members of the Supreme Court. The cry "Impeach Earl Warren!" is becoming a nationwide clamor that cannot long be ignored. The Zionist program for world conquest is so cut-and-dried, so rigid that it will not brook the slightest obstruction, as witness the current furore over the patriotic John Birch Society. Soon or late effective opposition exerted by dedicated patriots will pay off in triggering some folly so glaring on the part of these specialists in treason that it will be their own undoing.

It takes no very long stretch of imagination to sense the shadowy presence of ghosts of the Old Frontier--outlaws, cattle-rustlers, various gentry who deserved to be hung and often were--eager to see how matters of retribution will be handled on the New Frontier.

Lacking a crystal ball with which to probe the future, we have only the certainty that given enough rope the traitors will hang themselves.

* * * * * * * * * * * * * * * * * * * * * * * * * * * * * * * *

Repeatedly played up by the kosher press as one of Jewry's great is Maurice Samuel, author of the book You Gentiles, in which he boasts: "We Jews, we, the destroyers, will remain destroyers forever. Nothing that you will do will meet our needs and demands. We will forever destroy because we need a world of our own."

Could he put it any plainer?
